

Be there!  
Discover what is possible!

#### Trendsetting solutions

COMPOSITES EUROPE is a dynamic trade show with a high degree of innovation that shows off new concepts and provides answers for the challenges of our time.

- New concepts for materials and lightweight construction
- The very latest production and automation solutions

#### Hot spot of this sector

COMPOSITES EUROPE is a show window for commerce and actual practice in a network platform and forum for the future, a way to boost business and focus on new trends.

#### Efficient business in 3 days

Here you can find solutions for future applications from all main user industries such as automotive, aerospace, building and construction, wind energy and engineering.

Book one ticket –  
visit two trade shows

Yet another reason for you to come here: your ticket for COMPOSITES EUROPE is also valid for HYBRID Expo. The innovation platform for hybrid materials, technologies and components is being held at the same time in the adjacent Hall C2.

#### COMPOSITES EUROPE 2015

22–24 September 2015

#### Location

Landesmesse Stuttgart, Germany, Hall 3, 5 & 7

#### Opening times

9 a.m. – 6 p.m. on the 1st and 2nd day  
9 a.m. – 5 p.m. on the 3rd day

#### Organiser

Reed Exhibitions Deutschland GmbH  
Project COMPOSITES EUROPE  
Völklinger Straße 4, 40219 Düsseldorf

## COMPOSITES EUROPE: Show window for the future

### Europe's trade show for composites

Did you know? COMPOSITES EUROPE is Germany's biggest trade show for composites, technologies and applications, and also one of the most important ones internationally.

more than  
**450\***  
exhibitors

**11,000\***  
visitors

**24,000\***  
square metres of  
exhibition area in  
three halls

\* Expected figures.

## The whole world of composites

### Exhibitors over the entire process chain

Leading companies and exhibitors from all over the world present trend-setting solutions for the field of composites along the entire value chain:

From raw materials and  
proven procedures

to innovative materials and technologies

to new services

## The programme: Inspiration & knowledge at first hand

### Right where it is happening

The future takes shape here: In its function as the economic motor of Germany, Baden-Württemberg is counted among the leading high-tech regions of the world. You can take the pulse of the time at COMPOSITES EUROPE – right in the middle of the biggest market in Europe for composites and the associated technologies.

- + **1st International Composites Congress (ICC)**  
Experts will discuss the development of composites into a key industry and other current topics. 21 and 22 September, Hall C1, Organiser: Composites Germany

- + **Product Demonstration Area**  
A magnet for visitors for years now: developers and exhibitors explain new processes in live presentations and introduce innovative exhibits.

- + **COMPOSITES Forum**  
Exhibitors will give exciting presentations on current topics of the industry, innovations and research results from the application industries.
